AMENDMENTS TO THE CLAIMS

Claims 1-31 are pending in the instant application. Claims 1-6, 8-16, 18-21, 23-24, 26, 28, and 31 have been amended. New claim 22 has been entered. Claims 1, 11, and 21 are independent. Claims 2-11, 12-20, and 23-31 depend from independent claims 1, 11, and 21, respectively.

The Applicant requests reconsideration of the claims in view of the following amendments reflected in the listing of claims.

Listing of claims:

1. (Currently Amended) A method for providing media in a communication network, the method comprising:

generating a request from a first location to receive media from a non-broadcast channel provider;

providing ~~at least one~~one or both of payment and/~~or~~ authorization information to said non-broadcast channel provider; and

receiving at a second location, said media from a storage location other than said non-broadcast channel provider.

2. (Currently Amended) The method according to claim 1, ~~further~~ comprising presenting a representation of said ~~transferred~~ received media in ~~at~~

~~least one~~one or both of a media guide and/~~or~~ a channel guide at said first location and/or said second location.

3. (Currently Amended) The method according to claim 1, ~~further~~ comprising consuming said received media at said ~~first~~second location.

4. (Currently Amended) The method according to claim 1, ~~further~~ comprising requesting that said received media be transferred from said storage location to [[a]]said second location.

5. (Currently Amended) The method according to claim 4, ~~further~~ comprising transferring an identifier of said second location to said non-broadcast channel provider.

6. (Currently Amended) The method according to claim 4, ~~further~~ comprising presenting a representation of said transferred received media in ~~at least one~~one or both of a media guide and/~~or~~ a channel guide at said second location.

7. (Original) The method according to claim 4, wherein said media is consumed at said second location.

8. (Currently Amended) The method according to claim 4, wherein said non-broadcast channel provider authorizes said storage location to transfer said media to ~~at least one~~one or both of said first location and/~~or~~ said second location.

9. (Currently Amended) The method according to claim 1, ~~further~~ comprising searching said non-broadcast channel provider for information related to said media according to said generated request.

10. (Currently Amended) The method according to claim 1, ~~further~~ comprising selecting said received media for consumption.

11. (Currently Amended) A machine-readable storage having stored thereon, a computer program having at least one code section for providing media in a communication network, the at least one code section being executable by a machine for causing the machine to perform steps comprising:

generating a request from a first location to receive media from a non-broadcast channel provider;

providing ~~at least one~~one or both of payment and/~~or~~ authorization information to said non-broadcast channel provider; and

receiving at a second location, said media from a storage location other than said non-broadcast channel provider.

12. (Currently Amended) The machine-readable storage according to claim 11, ~~further~~ comprising code for presenting a representation of said ~~transferred~~ received media in ~~at least one~~one or both of a media guide and/or a channel guide at said first location and/or said second location.

13. (Currently Amended) The machine-readable storage according to claim 11, ~~further~~ comprising code for consuming said received media at said ~~first~~second location.

14. (Currently Amended) The machine-readable storage according to claim 11, ~~further~~ comprising code for requesting that said received media be transferred from said storage location to [[a]]said second location.

15. (Currently Amended) The machine-readable storage according to claim 14, ~~further~~ comprising code for transferring an identifier of said second location to said non-broadcast channel provider.

16. (Currently Amended) The machine-readable storage according to claim 14, ~~further~~ comprising code for presenting a representation of said ~~transferred~~ received media in ~~at least one~~one or both of a media guide and~~/or~~ a channel guide at said second location.

17. (Original) The machine-readable storage according to claim 14, wherein said media is consumed at said second location.

18. (Currently Amended) The machine-readable storage according to claim 14, wherein said non-broadcast channel provider authorizes said storage location to transfer said media to ~~at least one~~one or both of said first location and~~/or~~ said second location.

19. (Currently Amended) The machine-readable storage according to claim 11, ~~further~~ comprising code for searching said non-broadcast channel provider for information related to said media according to said generated request.

20. (Currently Amended) The machine-readable storage according to claim 11, ~~further~~ comprising code for selecting said received media for consumption.

21. (Currently Amended) A system for providing media in a communication network, the system comprising:

at least one processor that generates a request from a first location to receive media from a non-broadcast channel provider;

said at least one processor provides ~~at least one~~one or both of payment and/~~or~~ authorization information to said non-broadcast channel provider; and

said at least one processor receives at a second location, said media from a storage location other than said non-broadcast channel provider.

22. (New) The system according to claim 21, wherein said at least one processor presents a representation of said ~~transferred~~ received media in one or both of a media guide and/or a channel guide at said first location and/or said second location.

23. (Currently Amended) The system according to claim 21, wherein said at least one processor consumes said received media at said ~~first~~second location.

24. (Currently Amended) The system according to claim 21, wherein said at least one processor requests that said received media be transferred from said storage location to [[a]]said second location.

25. (Original) The system according to claim 24, wherein said at least one processor transfers an identifier of said second location to said non-broadcast channel provider.

26. (Currently Amended) The system according to claim 24, wherein said at least one processor presents a representation of said transferred received media in ~~at least one~~one or both of a media guide and/~~or~~ a channel guide at said second location.

27. (Original) The system according to claim 24, wherein said media is consumed at said second location.

28. (Currently Amended) The system according to claim 24, wherein said non-broadcast channel provider authorizes said storage location to transfer said media to ~~at least one~~one or both of said first location and/~~or~~ said second location.

29. (Original) The system according to claim 21, wherein said at least one processor searches said non-broadcast channel provider for information related to said media according to said generated request.

30. (Original) The system according to claim 21, wherein said at least one processor selects said received media for consumption.

31. (Currently Amended) The system according to claim 21, wherein said at least one processor is ~~at least one~~one or more of a media processing system processor, a media management system processor, a computer processor, a media exchange software processor and/~~or~~ a media peripheral processor.
